2	For End User .....	4

## 1 For IT Administrator

EndNote 20 Mac IT ADMINISTRATOR Site License Distribution

File name: **EndNote20Installer.dmg**

Starting from EndNote 20 Mac there is no option to generate an End User Distribution DMG Installer. The end user installer will be prepared by DISC – Researchsoftware.com and provided to you as a ready-made and ready to distribute EndNote 20 Mac end user installer. It will be a branded version for your organization.

Once you have received the EndNote 20 Mac end user version, you may distribute that file, without any handling, to the end users for internal network or 'home' usage. **See the 'For End Users' section how the setup flow works for end users with this pre-branded installer.**

This section is meant for you as an IT Administrator: 'EndNote 20 Mac IT ADMINISTRATOR Site License Distribution' can be used to setup individual Mac PC's:

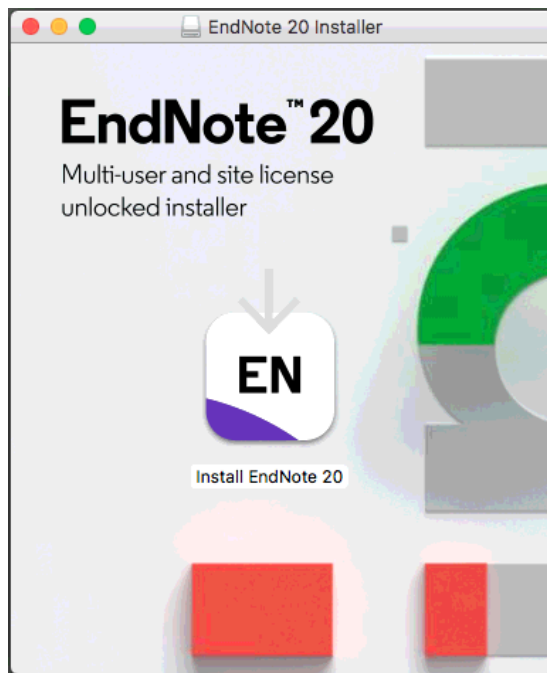

- Double click this 'EndNote20Installer.dmg' on the client's Mac PC
- Follow the instructions on your screen
- Advice: for organization name please use the format: 'Your Organization Name SLnumber'. The SL number is the Site License number we always provide. Since this will appear in the 'About EndNote 20' screen and this will be useful for support purposes.
- **Important: To avoid illegal distribution, please do not give product keys to your end users.**

## 2 For End User

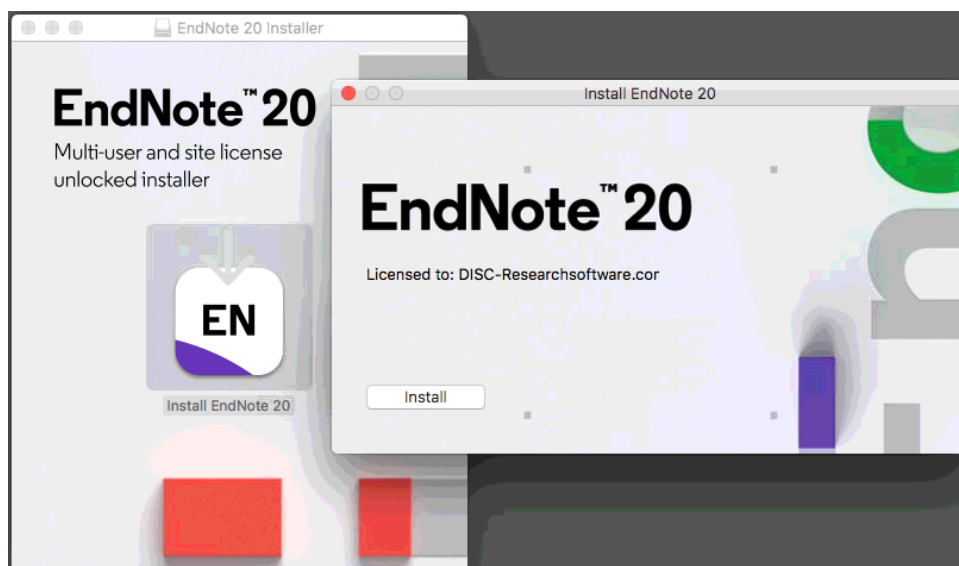

EndNote 20 Mac END USER BRANDED Site License Distribution

File name: **EndNote20SiteInstaller.dmg**. This installer will be provided to you by your IT Administrator.

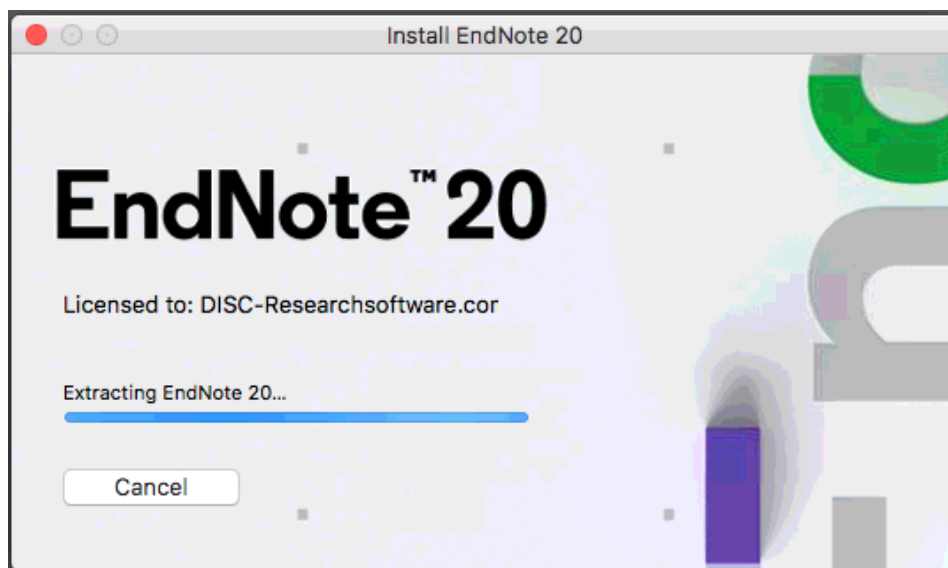

1. Double click the 'EndNote20SiteInstaller.dmg' downloaded into your 'Downloads' folder.
2. 'EndNote 20 Installer' screen appears:

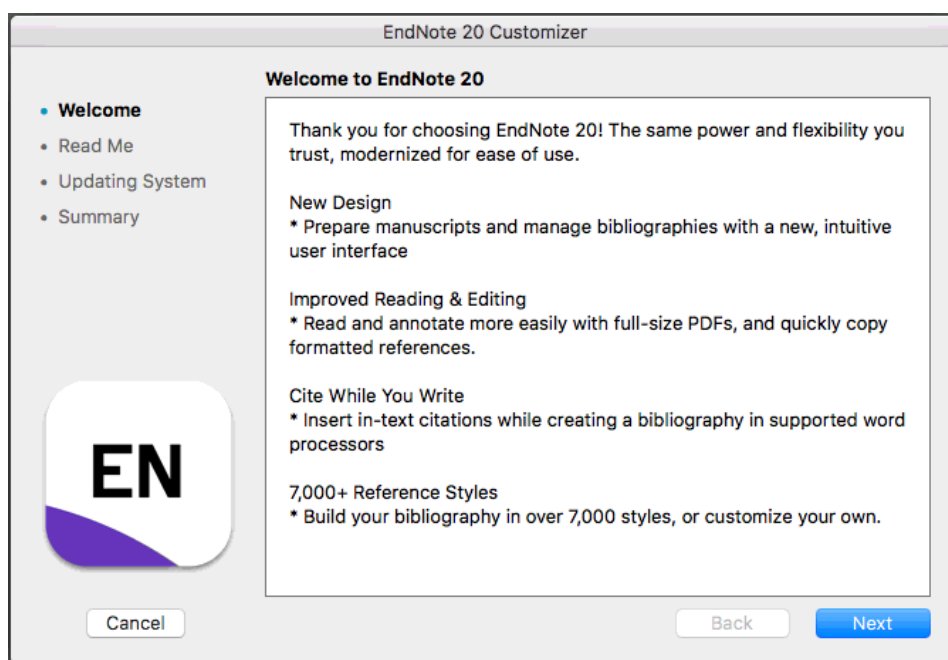

3. Double click the EN icon on this screen.
4. New small screen 'Install EndNote 20' opens:

5. Click 'Install'

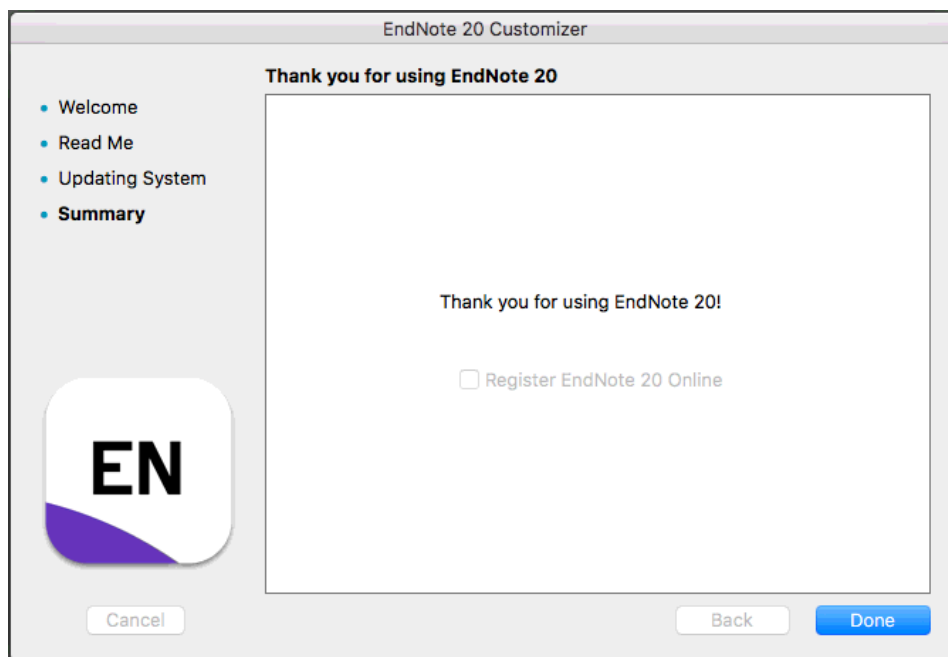

6. After the EndNote 20 installer is extracted and copied to 'Applications' the 'EndNote 20 Customizer' screen opens.

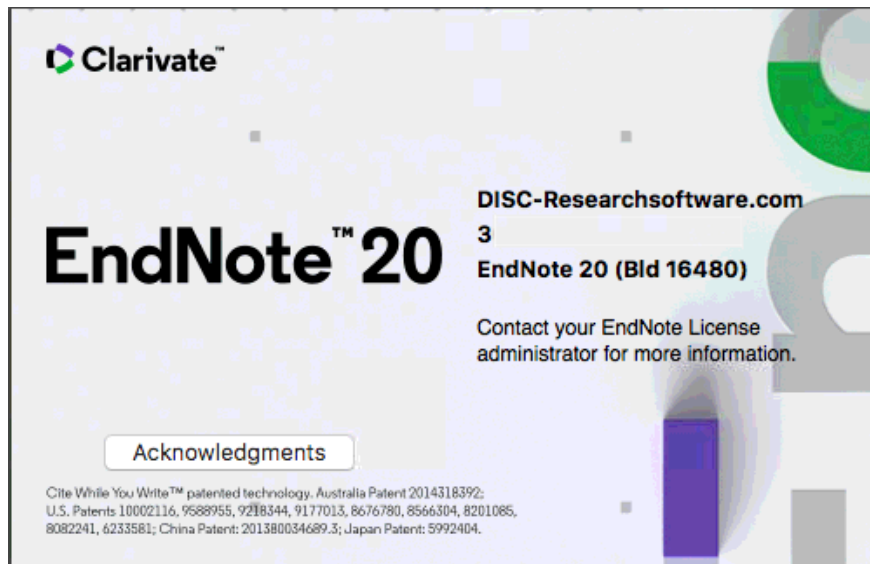

7. Click 'Next' and once again 'Next'

8. Click 'Done':

9. EndNote 20 starts.

10. Click 'EndNote 20 > About EndNote 20' to verify your license:

11. Uses and/or activities like multiplying, modifying, translating, decompiling, reverse engineering, redistributing or retransmitting in any form or by any means, the Software or any portion thereof, are not permitted, without the prior written consent of Clarivate Analytics (formerly Thomson Reuters) and/or DISC bv (Researchsoftware.com).
