

**Important: To avoid illegal distribution, please do not give product keys to your end users.**

## **For IT Administrators**

EndNote X8 Mac IT ADMINISTRATOR Site License Distribution

File name: **EndNoteX8Installer.dmg**

Starting from EndNote X8 Mac there is no option to generate an End User Distribution DMG Installer. The end user installer will be prepared by DISC – Researchsoftware.com and provided to you as a ready-made and ready to distribute EndNote X8 Mac end user installer. It will be a branded version for your organization.

Once you have received the EndNote X8 Mac end user version, you may distribute that file, without any handling, to the end users for internal network or 'home' usage. **See the 'For End Users' section how the setup flow works for end users with this pre-branded installer.**

This section is meant for you as an IT Administrator: 'EndNote X8 Mac IT ADMINISTRATOR Site License Distribution' can be used to setup individual Mac PC's:

- Double click this 'EndNoteX8Installer.dmg' on the client's Mac PC
- Follow the instructions on your screen
- Advice: for organization name please use the format: 'Your Organization Name SLnumber'. The SL number is the Site License number we always provide. Since this will appear in the 'About EndNote X8' screen and this will be useful for support purposes.
- **Important: To avoid illegal distribution, please do not give product keys to your end users.**

**Important: To avoid illegal distribution, please do not give product keys to your end users.**
